

Door Type #2

**Single Fold for "off center" window with
no raised molding around the glass**

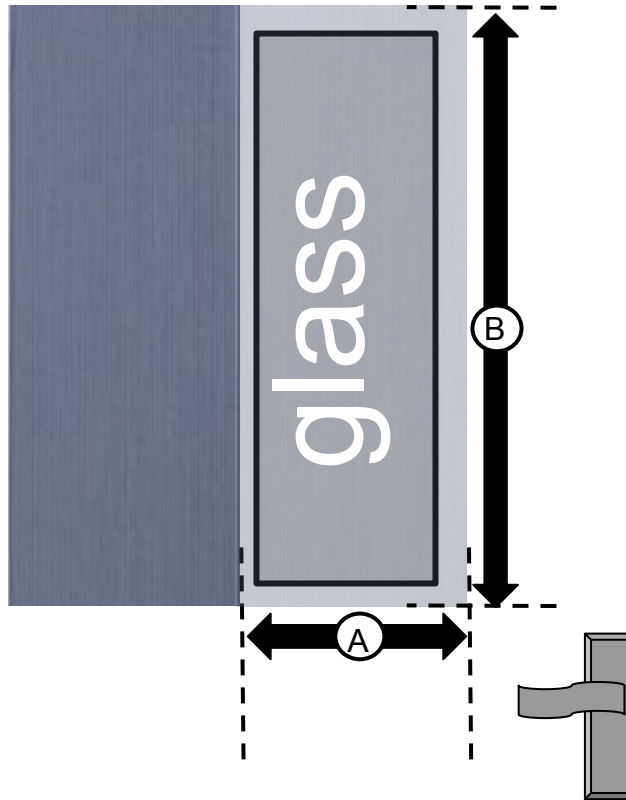

Measured By _____

Phone _____ Ext _____

This door requires a
Single Fold Shelter Shutter

Door pump

The dark grey shaded area represents the stack back or installed section of the shutter when in the open position. The light grey depicts the working section of the shutter when closed across the glass

If your "off center" door glass has a raised steel or wood molding around the glass
do not use this form.

Use Type #1

A. Shutter Width _____"
Measure the glass only and add about 3" for shutter width. (enough for strike plate placement)

Example... 6" glass width + 3" total overlap = 9" Shutter Width

B. Shutter Length _____"
Measure the glass only and add 3" for shutter length if space permits

Example... 32" glass length + 3" total overlap = 35" Shutter Length

Is the door steel? Yes ___ No ___
(check one)

Qty. of Identical Doors _____

*Shelter Shutters are reversible.
The same shutter can be used for a door that opens left or right.*

If the door pump on top or door handle or panic bar on bottom or to the side seems to interfere with the top, side or bottom of the glass please send a photo or make notes below and sketch obstruction into this drawing.
