

Door Type #4

Multi Fold for center window with no raised molding around the glass

Measured By _____

Phone _____ Ext _____

A. Width _____"
start about one inch in from hinge side of door and measure to cover the glass by about 1" to 2" if space permits. (see dotted lines)

B. Length _____"
Length should be measured 2" past the glass on both the top and bottom. If a door pump or panic bar interferes send a photo of the door from inside the room with this blueprint

C. Installation Space _____"
start about one inch from hinge side of door (as you did in step A) and measure the space available for installation (for tape placement:)

Is the door steel? Yes ___ No ___
(check one)

Qty. of Identical Doors _____

*Shelter Shutters are reversible.
The same shutter can be used for a door that opens left or right.*

If the door handle or panic bar interferes with the side or bottom of the glass please send a photo or make notes below and sketch handle into this drawing.
