

Shelter Shutters™ MEASURE FORM

(Center Glass)

* Cross out steps not applicable to your door.

Rooms _____

Quantity of identical _____

Follow Steps Below

Step 1: Measure Glass Width. (Left to right)

Step 2: Measure Glass Length. (Top to Bottom)

Step 3: Measure Top of Door to Top of Glass.

Step 4: Measure Top of Door to Bottom of Door Pump. (If the door pump hits the window frame, measure up to frame.)

Step 5: Measure Window Width (include the moulding if it is raised)

Step 6: Measure Moulding Thickness or Bump Out from the Door Surface. (See Figure 1 below)

Step 7: Measure Door Handle to Edge of Glass. (If door has panic bar, see Figure 2 below)

Step 8: Measure Door Width
