Frame Face.

5. _____

Step 6: Measure
Frame Face.

6. _____

Step 7: Measure
Frame Face.

7. _____

Step 8: Measure
Frame Face.

8. _____

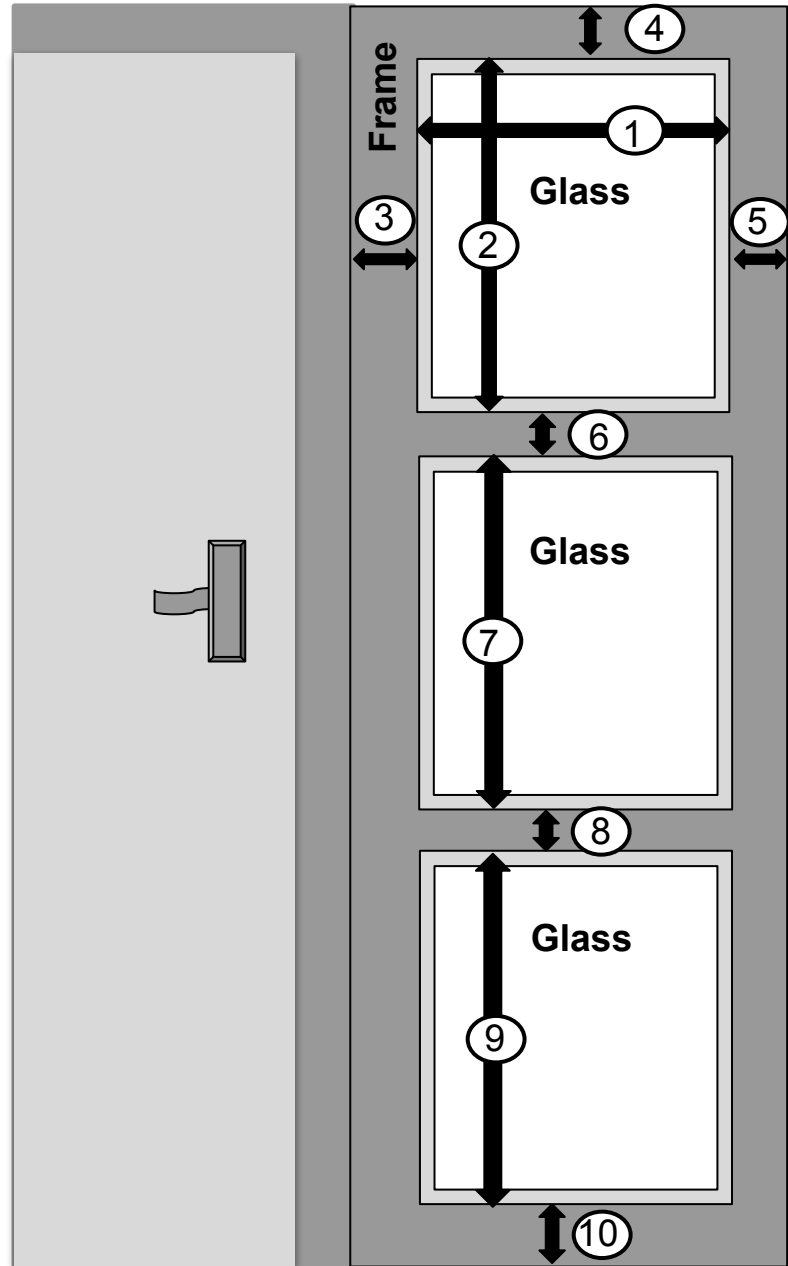

Step 8: Measure
Frame Face.

8. _____

Step 8: Measure
Frame Face.

8. _____

Most sidelight and interior facing school windows have a steel frame which is ideal for Shelter Shutters. If the frame around the glass is not steel, we can provide thin steel adhesive plates to be adhered to the aluminum or non ferrous surface where the shutters magnets meet the metal.
